

Test Automation on OutSystems

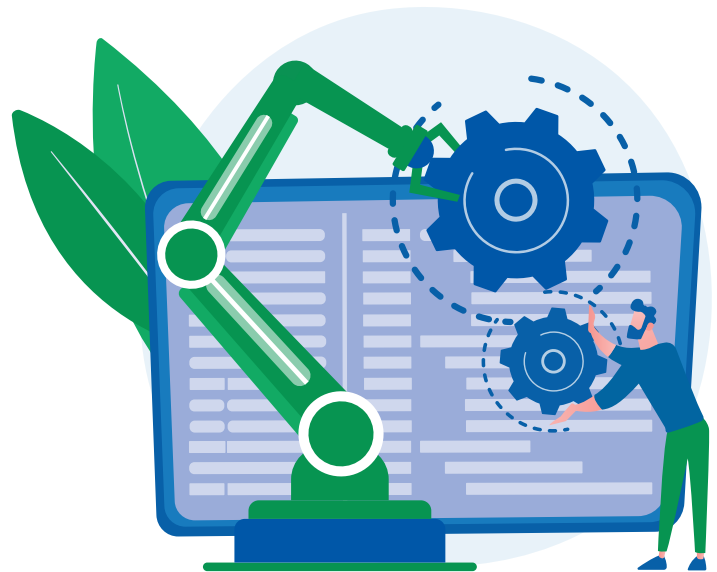

Want to speed up your OutSystems development cycle and reduce time to market for your Low-Code apps?

Our **Test Automation on OutSystems** tool can help! With our test automation tool, you'll save time, ensure high-quality software delivery, and say goodbye to manual testing. **Try it out today and see the difference for yourself!**

About our offer

Unlock the full potential of your **Low-Code applications** on the **OutSystems platform** with our cutting-edge **Test Automation tool**.

Tailored specifically to meet the needs of **Low-Code development**, our advanced technology enables you to streamline your testing process, reduce costs, and improve the overall quality of your applications.

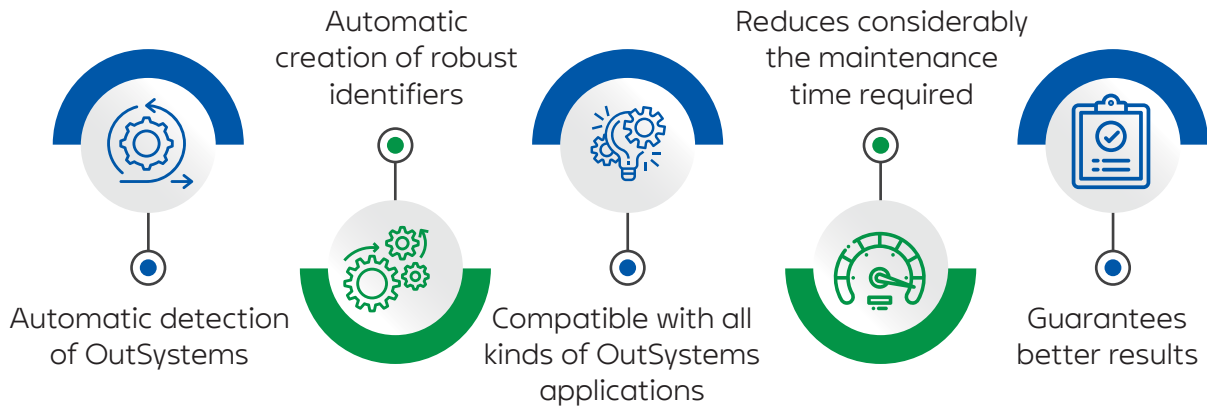

Advantages

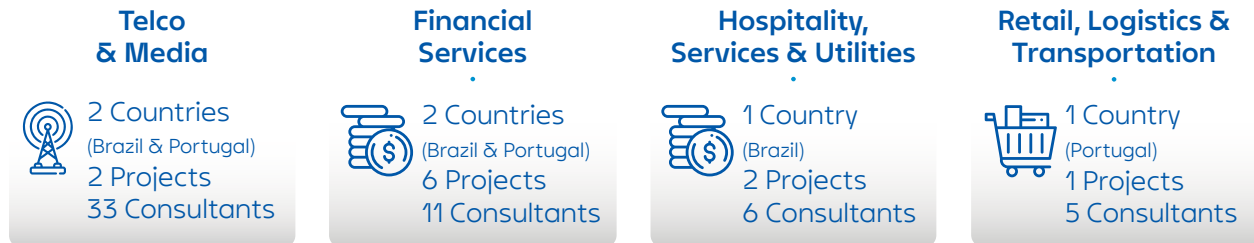

-  Automated testing boosts app quality and efficiency, helping organizations create and maintain OutSystems apps with lower costs.
-  Our tool boosts agility, efficiency, and success by streamlining collaboration between teams and maximizing potential.
-  Our tool's specialized algorithm for creating robust OutSystems object identifiers enhances quality, streamlines development, and ensures superior outcomes.
-  Developers and testers benefit from the convenience offered through this tool by eliminating the manual process of creating and maintaining correct identifiers needed for testing the applications.

Features

Success Stories

NOESIS

Noesis is an international tech consulting company with 30 years of experience, delivering solutions to drive digital transformation and support business growth. It offers a wide portfolio of IT services, including areas such as IT Ops & Infrastructure, Cloud & Security, Enterprise Solutions, Low-Code Solutions, Data Analytics & AI, DevOps & Automation, Quality Management, Enterprise Application Integration, and Professional Services. With more than 1.300 highly qualified talents, Noesis operates in eight countries: Portugal, Spain, the Netherlands, Ireland, the United Kingdom, Brazil, the USA, and the United Arab Emirates. As part of the Altia Group, listed on the Spanish stock exchange BME Growth, the company integrates a network of more than 4000 professionals, with operations in nine countries and a presence in more than 30 locations.

outsystems

The Noesis and OutSystems partnership dates back to the first project developed with the low-code platform. Today Noesis has more than 700+ certifications OutSystems within its team. A highly skilled team that can deliver custom-made solutions in record time, with the most significant business impact.

testingON[®] simplified test automation

testingON – Simplified test automation simplifies the test automation process in an intuitive, fast, and versatile way, which means you can optimize the time-to-market for a solution while reducing costs in your overall development cycle. TestingOn is a NO-CODE solution allowing non-technical people to implement test automation batteries which can also quickly adapt to the specific needs of each market sector.
